

Alfa Laval Troubleshooting for Aalborg boilers

Fast and effective guidance to minimize boiler downtime

Alfa Laval specialists can help you resolve problems with any aspect of any boiler system, regardless of type or brand. Our troubleshooting experts assist with critical or emergency issues, but also provide broader advice for preventing future boiler problems.

The experts who assist you by phone and e-mail draw on years of practical experience – and are supported by our engineering department to ensure an optimal outcome. With their guidance, many issues can be resolved by your own crew.

Troubleshooting for boilers is available 24/7, 365 days a year, with remote assistance provided via our round-the-clock service hotline. When onboard troubleshooting is needed, Alfa Laval field service engineers can quickly be dispatched to anywhere in the world – in port or at sea.

Benefits

- Quick resolution of boiler issues with immediate suggestions and guidance
- Reduced risk of expensive downtime or even off-hire
- Minimized cost – crew members can be guided remotely to solve problems themselves
- Peace of mind – our experts answer all questions and always find a solution

How to contact us

For remote troubleshooting, or to book our field service engineers for call-out services, you can contact our service support desk in the following ways:

- 24/7 service hotline: +45 4016 6686
- E-mail: service.aalborg@alfalaval.com

Scope of service

- **Phone and e-mail support**

Remote guidance in dealing with boiler issues is available from Alfa Laval experts.

- **24/7 service hotline**

Alfa Laval experts are on hand 24/7 to resolve critical boiler issues by phone.

- **Call-out services**
